PROFESSIONAL EXPERIENCE

University of Alicante

Research assistant

Project – Data science applied to the analysis of economic policies (INVEST/2023/448)

Analyzed economic and monetary policy news broadcasted on radio and television using Python by:

- Performed thematic segmentation and extracted relevant contents based on keywords
- Interacted with local LLMs to translate news and evaluate translation accuracy
- Managed and queried large databases using MongoDB

Alicante, Spain
12/2023-12/2025

European Central Bank (ECB)

DG Monetary Policy – MSY – Strategic Issues Section Trainee

Frankfurt, Germany

09/2022-08/2023

- Maintained the Division's models and developed extensions in MATLAB (Bayesian-VAR, Proxy VAR, Factor models, PCA...)
- Supported the intraday analysis of monetary policy decisions
Performed monetary policy (factor decomposition) analysis and synthesized markets' reactions
- Analyzed the data and reinforced the processing infrastructure of the in-house run Survey of Monetary Analysts and the Bloomberg and Reuters Monetary Policy Expectations Survey
- Provided research assistance support on the background note and presentation for the Governing Council seminar "*Macroeconomic implications of the transition to a low-carbon economy*"
- Created and updated charts and datasets

European Securities and Markets Authority (ESMA)

Securitisation Trainee

Paris, France

10/2020– 09/2021

- Contributed to setting up the supervision of Securitisation Repositories (SRs) (E.g., Built a script using R to check completeness and consistency of SRs data)
- Developed, alongside the IT department, the platform that would automate the registration of Simple, Transparent and Standardized Securitisations
- Provided guidance to market participants on the reporting obligation of the disclosure templates for Securitisation

European Union Intellectual Property Office (EUIPO)

Internal Control and Environment Trainee

Alicante, Spain

09/2019– 09/2020

- Analysed the inventory of tasks of the IBD department making use of BI technologies
- Reengineered business processes to increase their efficiency and diminish their environmental impact
- Took ownership on the design of an app for the management of OHS incidents

Pavigym

Services Support Trainee

Alicante, Spain

04/2019– 07/2019

- Conducted market research and created roadmaps for our new PRAMA locations that included: competition analysis, price fixing strategies, promotions...
- Managed and performed analysis of social networks
- Developed marketing strategies to attract new customers

TEACHING EXPERIENCE**University of Alicante**

Teaching assistant

- Statistics and Introduction to Econometrics (Undergraduate, Autumn 2024, 2025)
- Quantitative Methods (Undergraduate, Spring 2025)

WORK IN PROGRESS**“A Chicken-and-Egg Problem: Profits and Inflation after COVID-19”**

Develops a unified Bayesian VAR framework to disentangle how profits have affected inflation in the Euro area, focusing on the period after the pandemic.

“Sentiment Analysis on Unconventional Media”

Constructs economic sentiment indicators from unconventional data, analysing how influential voices shape expectations and evaluating their forecasting and nowcasting performance for key macroeconomic aggregates.

CONFERENCES & WORKSHOPS

Symposium of the Spanish Economic Association SAEe, Barcelona, Spain (December 2025)

Macroeconomics and Productivity, Alicante, Spain (June 2025)
